

INTELLIGENT MEDICAL SERVICES

Summer School 2019

JOIN THE SYMPOSIA TO LEARN MORE ABOUT:

- the recent advances in the use of personal health data for disease screening or diagnosis
- the smart clinical decision support tools developed in the electronic medical record system to support decision making; and
- the development process of the clinical decision support tool for cardiovascular disease including the knowledge base formation and machine learning algorithm validation.

A/PROF DR ADAM DUNN

Centre for Health Informatics
Macquarie University, Sydney

DR TAQDIR ALI

Ubiquitous Computing Lab
Kyung Hee University, Seoul

SYMPOSIUM 1:

2 October 2019 | 0900 - 1200

Recent Advances in the Use of Personal Health Data for
Disease Screening or Diagnosis (A/Prof Adam Dunn)

Dialogue-based Intelligent Medical Platform for
Clinical Decision Making (Dr Taqdir Ali)

SYMPOSIUM 2:

3 October 2019 | 0900 - 1200

Hybrid Knowledge Acquisition Methodology For Silo
Construction: Cardiovascular Case Study (Dr Taqdir Ali)

at Bilik Serbaguna, Faculty of Medicine

ADMISSION IS FREE
